PRESIDENT'S MESSAGE

Volunteer Leaders Needed

We need volunteers to help our club thrive. If you have any interest in helping to shape the future of The Cascades Camera Club, please contact a board member. We need a volunteer to serve as Vice President starting Jan 2026. Steve Peters has done a wonderful job but would like to 'pass the torch'. The vice-president's primary responsibility is to organize critics for the monthly image critique nights. Steve has compiled lists of folks we have used in the past and are willing to help in the future. We need to submit a slate of officers to the board by September, members will vote on the candidates in December. If you are interested in this position or any other board position, please contact any board member.

Exciting Workshop Opportunity with Aaron Hockley:

Mark Your Calendar

Sunday October 19, 2025 Time 9 am – 5 pm

Location: Classroom: OSU Cascades

1500 SW Chandler Ave, Bend, OR 97702

Cost: \$75 members / \$125 nonmembers

The Impact Factor: Take Your Photography from Good to Great

"Nice photo" isn't a bad compliment, but wouldn't it be even nicer to create images that evoke a stronger reaction? While photography is subjective, we can use a variety of objective factors to evaluate our work and elevate it to the next level. This workshop will provide attendees with both the mindset and tools to critique your own photography as well as specific techniques (both in-camera and in post-processing) to create more impactful images.

Topics will include:

How to objectively critique subjective work using a 12-point framework for evaluating a photo-

graph. These elements include technical criteria, emotional criteria, and how they blend together to create an image that stands out (or ends up unremarkable)

- Capturing impact: how to make choices at the time of capture so that you portray your subject (landscape, human, pets, anything) such that it creates the strongest possible work when you press the shutter button.

- Creating impact: numerous post-processing techniques (demonstrated with a variety of software) to take "good" images to "great" after capture.

Modern cameras (including smartphones) have made it easier than ever to create good photos. The best photographers set themselves apart by taking their work to the next level. Regardless of your genre of photography or your goals, attendees will leave this workshop with new mindsets and new techniques to increase the impact of their photography.

About Aaron:

Aaron Hockley is a photographer, author, and speaker who merges his expertise in photography and technology to help others find success. He's a PPA Master Photographer and Photographic Craftsman and has represented Team USA

in the World Photographic Cup. He writes and speaks about technical aspects of photography, photo businesses, and the industry as a whole. He has spoken to audiences of photographers, marketers, and media professionals on stages of all sizes nationwide. Aaron's recent ventures have focused on how Artificial Intelligence impacts how photographers capture, edit, and manage their images with an eye toward the shifting future of the industry.

As always, your board continues to work hard to provide meaningful content for the club. We appreciate any input you may have.

Todd Towell

LAST CHANCE TO PURCHASE A COPY OF "THE SPIRIT OF CENTRAL OREGON"

HOLIDAY GIFT IDEA

Seriously, think for a moment. I'm sure you know someone who would enjoy this awesome coffee table book as a Holiday Gift. And, you can't beat the price.

For a limited time, members are invited to purchase one of the last 50 copies of SOCO at our inventory liquidation sale for \$36 per copy. First come first served. No shipping, purchased books will be available at the next scheduled club meeting for pick up

UPCOMING PROGRAMS

August 18th - Robert Agli

60 Years in Focus - A Life Through the Lens

Join Robert on a blast through the decades and how the characters he met in the last 20 years with the Cascade Camera Club influenced his photo journey. Expect many guest appearances on screen.

Oct 20th – Aaron Hockley -

Real Creativity with Artificial Intelligence

You can't talk about photography in 2025 without talking about artificial intelligence. Software such as Midjourney and Adobe Firefly allows for the creation of entire images, and we've seen AI-powered tools added to nearly all photo editing software, such as Photoshop, Lightroom, Luminar, Apple Photos, ON1, and more. Each week we get new AI photography news. It could be an announcement about a new tool from Adobe, Google, or OpenAI, or it might be an argument or lawsuit about the copyright aspects of the tools. Let's take a *practical* look at using artificial intelligence to augment (not replace) our creative photography work.

We'll briefly review how AI image-generation tools work and touch on the copyright issues before getting into the software to explore numerous ways to incorporate AI into our creative world.

IMAGE SUBMISSION REMINDER

When you submit an image for critique, your upload is always confirmed by an email back to you.

FOR SALE

DJI Inspire 1, Incredible Opportunity.

I have retired from commercial aerial work. Original purchase \$3350 but I'm selling everything for \$500! Price has a ton of accessories including 2 controllers with harnesses and shade, 2 batteries, multi charger, carrying case, a bunch of props and other parts and a Hoodman launch pad which gives you a safe launch and landing without throwing up dust and rocks.

Call Robert with any questions: 541-408-3772.
